Product	Description
JSK1006-K 	<b>Bank 125</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK1008-K 	<b>Quarter Pipe 140</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK1052-K 	<b>Trick Box</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK5013-K 	<b>Pyramid and Curb</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK1023-K 	<b>Launch Box 60 A</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK1048-C 	<b>Rail C</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
JSK2015-K 	<b>Mini Ramp 140</b> The Skates elements are of modular construction that allows with the minimum effort the ability to modify the situation of the modules according to the criteria of each group of skaters. with minimum maintenance and 100% resistant to UVA rays, ice and impacts. Great adherence to the ground. The surface is not heated. Based on modular construction. <a href="#">Data Sheet</a>
