

UM3D80

Lounger right armrest

PIRO

Recommended anchoring M10 bolts

RAL7006

Regulations and certifications:

Urban lounger with right side armrest. Steel structure (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimum resistance to corrosion) with RAL 7006 finish and hardwood treated with protective oil.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.

Tropical wood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
